

Unity is Strength

While the song that this article is about is over 100 years old and was written in support of Federation, it holds very true to this day as to what is required to save this country and indeed our race from the multiracial onslaught that is enslaving and destroying us. Whatever happened to the pride that inspired this song? Such things as diversity, equal rights, anti-discrimination, multiculturalism, feminism, and political correctness have destroyed our pride. All of the catch phrases that we have had rammed down our throats for decades.

Therefore, what relevance has this ancient song to today's world you might be asking? Well for a start the emotions and pride described in the song is what this country was built on. It describes how White people banded together to create an identity, to create a country from virtually nothing except bare hands and ingenuity, to fight for the country with one's own life. It tells of a time before political correctness and blatant anti-White discrimination. It was a time where White Nationalists were not public outcasts and vilified at every turn. It was a time where White Nationalism was the accepted norm.

The song is about the Australia our ancestors strived to build not the disgraceful mess that it has become. It tells of uniting people who share a common bond, a bond greater than just living in the same country because the bond is blood. The current Australian situation is not what our ancestors wanted, they wanted a free united White Australia. Australia and indeed the entire Western world of today has lost the plot, it has lost its roots, it has lost what it means to be a united people of one blood and one race sharing exactly the same goals in life.

Those in control of our media and government have tried to take away our identity. This song is a part of our identity that has been forgotten in the main by those who seek our utter demise. I only found out about this song very recently and I am very glad that I did. We as a whole have been too scared of being called vile vicious names to display any pride in ourselves. We have been conned out of our very existence and the time is well overdue for us to break the shackles of political correctness and once again be proud of who and what we are. I want to share this great song with as many people as possible as in it lies the key to our very survival.

I now give you Unity is Strength -

Unity is Strength

Words by William Carrington

Tune "March of the Men of Harlech"

Come Australians!

Once for ever Break the bars that now dissever

Brothers, to be parted never,

Unity is Strength!

Be no longer disunited,

By no phantom be affrighted

Let Australia's wrongs be righted,

Unity is Strength!

All the divisions ended,

Each by all defended!

One our land and future grand,

And one the flag that's o'er us,

One in race and one in story,

One power and one in glory,

One in all that makes a nation,

Unity is Strength!

See Victorians, all are waiting

Now with fervor unabating.

Let there be no hesitating,

Unity is Strength!

South Australia, nobly leading

New South Wales, the call, too heeding

Wave provincial far receding

Unity is Strength!

Answers back Tasmania

Vote yes for Australia

Queensland too, relies on you

And West Australia's calling

Union offers - will ye flout it?

Now your answer - who dare doubt it?

To the wide world, we will shout it!

Unity is Strength!

Australia's sons and daughters, all o'er us.

From the Grand Old Land that bore us,

Peals the patriotic chorus!

Unity is Strength!

See the Scotch, the Welsh, the English,

Ole time feuds and strife extinguish;

Irelands, sons, now too, distinguish,

Unity is Strength!

Scorn, then, ways provincial

Rise to Life Imperial,

Land of Light

And progress bright

No more shall strife degrade her,

Strong for War, should foes invade her

Great in Peace, if peace should aid her

Thus we pledge our loved Australia

Unity is Strength!
